## Mern Stack Developer

bhakar SOURABH@gmail.com  
8307802850

Bhiwani, India

## Profile

Passionate and detail-oriented MERN (MongoDB, Express.js, React, Node.js) Stack Developer seeking an entry-level position to contribute my skills and knowledge in web development. Eager to apply my academic background and hands-on experience to create innovative and efficient solutions in a collaborative team environment.

## Education

**B.SC in science, Cblu college**

## Projects

Personal Projects: [Portfolio website]

- Developed a personal portfolio website showcasing skills, projects, and achievements.
- Implemented a responsive design and integrated it with a backend server.
- Created a blog application with CRUD functionality, allowing users to create, read, update, and delete posts.
- Utilized React for the front end and Node.js with Express for the back end.
- Implemented MongoDB for database storage and retrieval.
- Developed a full-stack food delivery website using the MERN stack.
- Implemented user authentication and authorization using JSON Web Tokens (JWT).
- Integrated a responsive design for seamless user experience across devices.

## Skills

HTML5	3/5
